1. OVERVIEW

1.1 Introduction

This document describes the XML Purchase Order message that House of Fraser offers. You can receive your Purchase Orders in more than one format comprising of XML and EDI. The EDI format we offer is in Edifact and Tradacom and the messages are dispatched via FTP only. HOF does not support EDI VAN connections. In this document the XML Purchase Order Message format is described and explained to give an understanding of the schema.

2. STRUCTURE

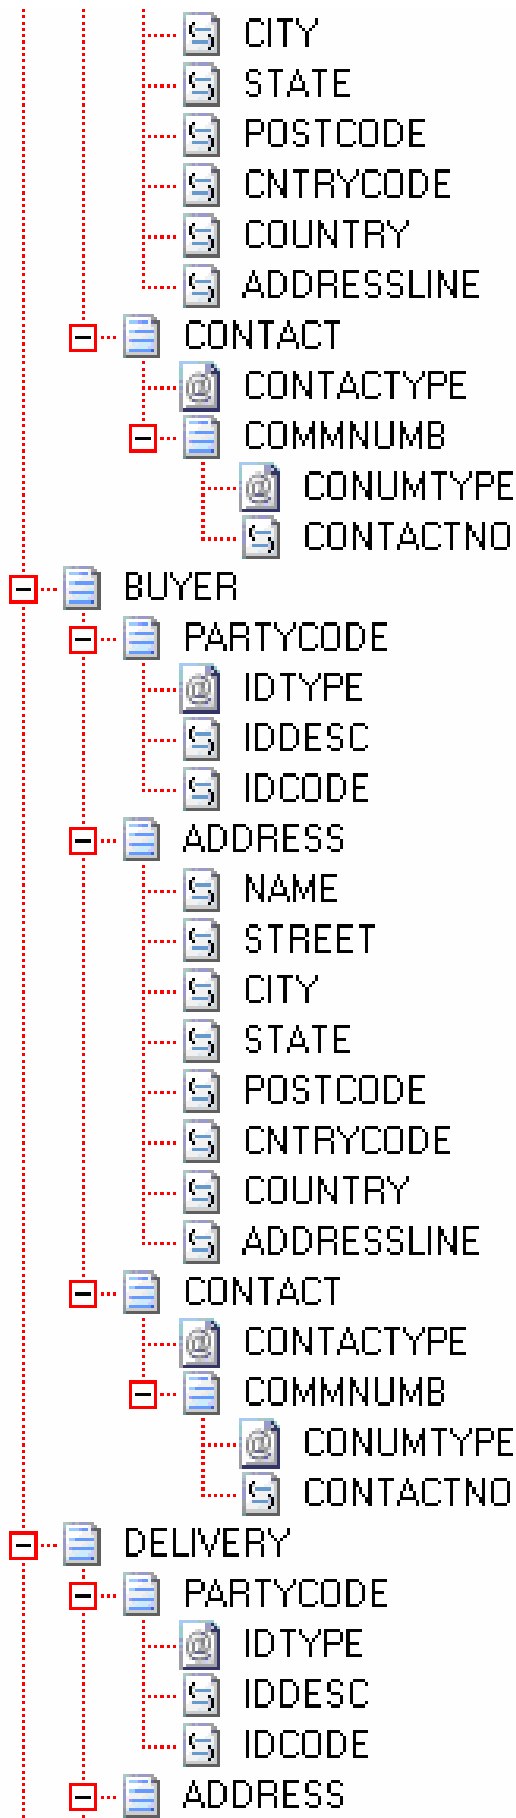

2.1 XML Document Structure

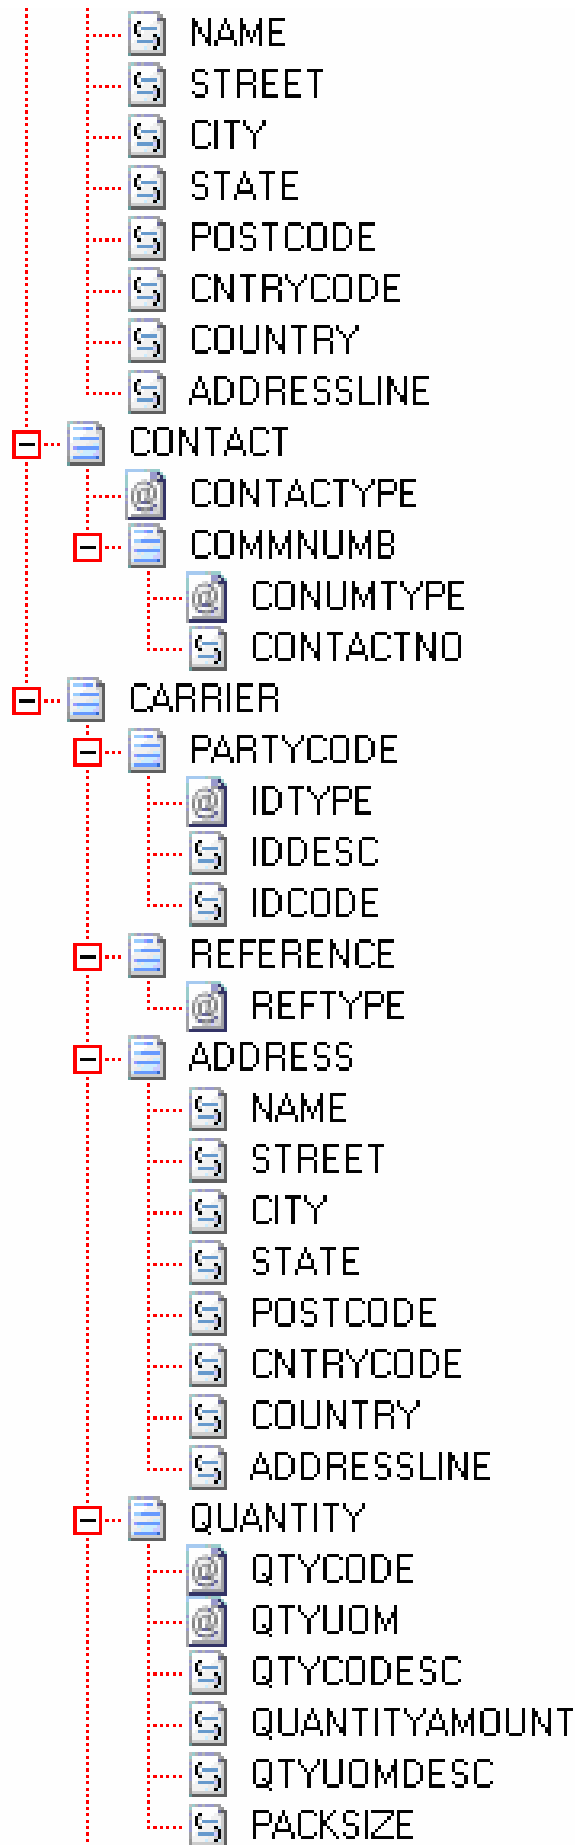

The structure of the XML schema is the same to that of the BASDA standard including the level of hierarchy.

2.2 XML Purchase Order Structure

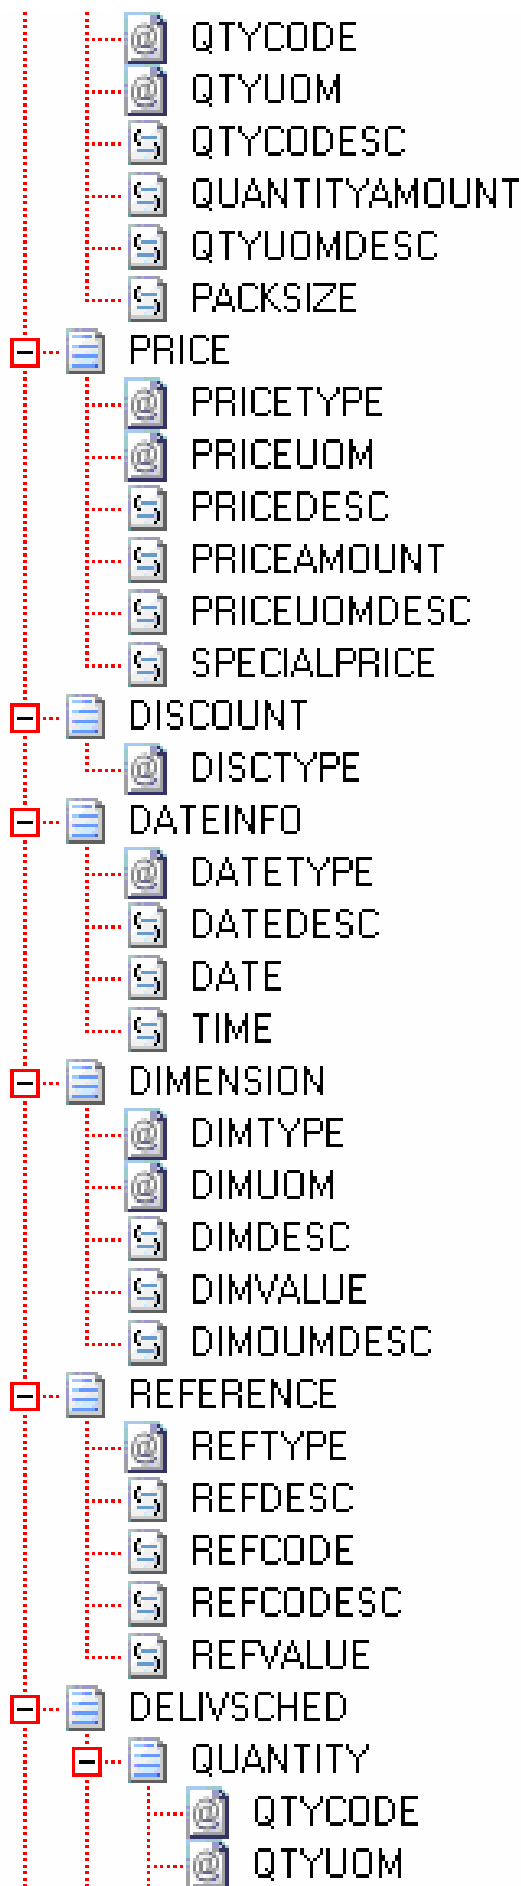

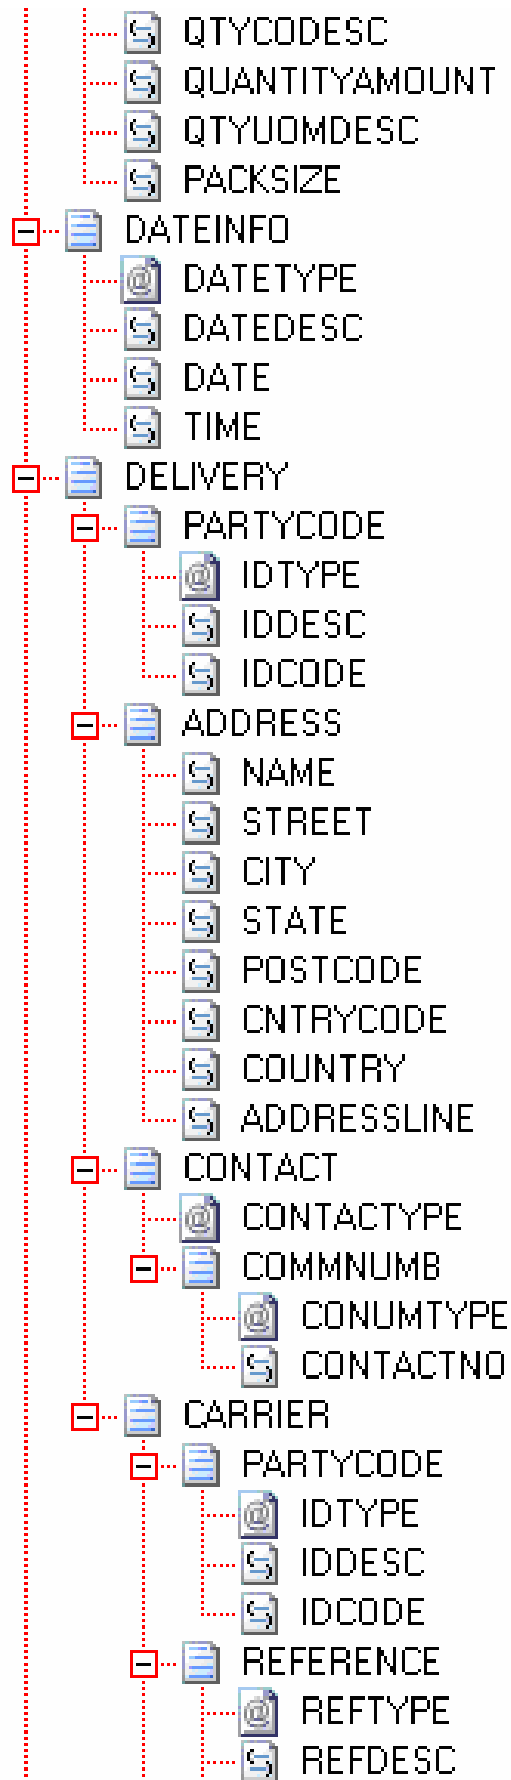

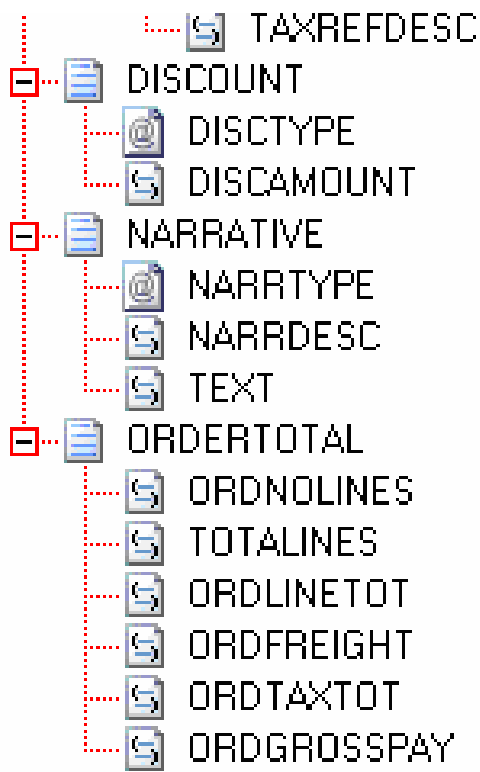

3. PROPERTIES OF ELEMENTS

The XML schema should enforce typing for all of the elements. Restrictions on the properties of the elements and the descriptions are shown below in this section.
